

The Ann Arbor

O. PALMER, EDITOR & PROPRIETOR
THURSDAY, MAY 10, 1888.

Entered at the Post Office at Grayling Mich., as second-class matter.

POLITICAL AND MISCELLANEOUS.

Sim Coy, of Indianapolis, who has been sentenced to the penitentiary, for tally sheet forgeries, is a member of the city council. A resolution was introduced to expel him, and every democrat in the council voted against it.

There are too many living witnesses to Senator Voorhees' copperheadism to make it pleasant sailing for the "tall sycamore," and they are coming to the front now and adding their testimonials to those offered by Senator Ingalls, showing up his villainous record during the war.—*Det. Tribune.*

The *Detroit News*, says, "The Vienna people can't quite understand how it comes that Minister Layton, who was a major general in the confederate army, should now be a representative of the federal government at a foreign court." It is no wonder to those who are acquainted with the administration and its confederate proclivities.

The inguimps who are free traders are the only ones who will support Cleveland. The mass of the independent vote that went to him in 1884 has returned to the republican ranks, and will remain there. They have seen the hypocrisy of the sham reformer's career and are disgusted with him and his party.—*Blade.*

Hon. Richard W. Thompson inquired, yesterday, apropos of a vote in the convention, "What can be more unanimous than unanimity?" As Mr. Ingalls pointed out in his late celebrated speech in the Senate, the Louisiana election returns, which showed more democratic votes than there are voters of both parties, were more than unanimous.—*Indianapolis Journal.*

Mr. Watterson explains that his proposition that "one hundred thousand unarmed Kentuckians" go to Washington and put Tilden in the presidential chair was merely a little joke. Voorhees has not yet explained about that hundred thousand he was to have ready at Hardesty's call, but it is probable that, also, was a joke. These great democrats are a humorous lot.—*Indianapolis Journal.*

Every reduction of our tariffs has been followed by an increase of importations and increase of the revenues from duties.

Every reduction of our tariff was followed by a decrease of the domestic production and a decrease of the utter loss of the wages of labor. No exception of this invariable relation of cause to effect can be found in this history of the United States.—*New York Sun, (Dem.)*

The republicans should elect not only the next president and vice-president, but a majority in the lower house of congress. The election of a republican legislature in New Jersey would also result in the gain of a republican United States senator, making a reliable republican majority in that body. The next Ohio legislature will also put a republican senator in H. B. Payne's place, and the old patriotic appearance of things will be resumed at Washington.—*Chicago Journal.*

Scandinavian residents of Worcester, Mass., have petitioned the City Council to grant no liquor license to any Scandinavian. This request indicates an astonishing advance in temperance among a people of European birth from whom such a position was not expected by anybody, and will materially increase the high repute in which Scandinavians are held where ever they have settled. If those of other nationalities would take a similar stand, the great drink evil would rapidly diminish.—*State Republican.*

When it was announced that S. J. Tomlinson would assume control of the Bay City Tribune, there were hearts that quaked with the fear that he would do something rash, and so alter the paper that its oldest friends would not recognize it. Alas! the worst that was feared has come to pass the oldest reader will never see the well known feature of the old Tribune again! Mr. Tomlinson has ruthlessly stopped publishing that long-continued serial editorial exhibiting "The Sham of Education."—*State Republican.*

An exchange says: When something in a paper don't exactly please you, just call around and stop the paper. In all probability the very thing which don't please you, will be very good reading for a few hundred other persons and the editor will probably gain a dozen new subscribers to take the place of the one dropping off, therefore he can still survive and lose your patronage. Another thing should be thought of too, and that is, when you hear something particularly interesting in the paper you have "stopped," you can borrow one from your neighbor to read.

(Continued next week.)

The Ingalls-Voorhees incident furnishes democratic papers another opportunity to deliver themselves of the threadbare remark that "the war is over," and to censure republicans for trying to revive its memories, etc. Yes, the war is over, no thanks to the democratic party, and the country enjoys profound peace under the government they tried to destroy. They are magnanimously willing to let bygones be bygones, and would be very glad to have the war and its record and all its memories in the deep bosom of the ocean buried. But those Banquo's ghosts of the past pop up once in a while, and democrats have no right to complain if the mirror of history is occasionally held up before them.—*Indianapolis Journal.*

The Verdict Unanimous.

W. D. Suit, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 30 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters. Thousands of others have offered their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at TRAYER'S Drug Store."

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's new Discovery for Consumption and was so much relieved on taking the first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luter Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C.

Two more democrats come to grief.
Last week, two men named O'Connor,
living in Ogemaw county, were fined
\$50.00 each, or 90 days in jail, for
violating the election laws. They
wanted to keep their township demo-
cratic and refused to allow republicans
to register.

A saloon license has been approved
by the Township Board of Frederic,
with Messrs. Webb and Davenport as
bondsmen. We congratulate them on
their success in life, as it is not long
since they were reported to be in mod-
erate circumstances.

Stop digging wells and have F. R.
Deckrow put in a tubular well for
you. No dirt in the well, no caving
in, and always pure water, and never
out of order. Windmills and pumps
bought of him will be set and war-
ranted. Buy the best and save money.

Mr. and Mrs. S. C. Knight desire us
to return their sincere thanks to the
citizens of Grayling, for the many acts
of kindness extended them during
their sad affliction, and to the proprie-
tors of the livery stables for the car-
riages furnished the family and friends
on the day of the funeral.

R. Hanson and wife, M. J. Connine
and wife, Mesdames J. L. Wild, J. M.
Jones, J. K. Hanson, Misses Vena
Jones, Tillie Hanson, Clara Lankenau
and Messrs. J. Staley, E. Salling, M. S.
Hartwick and E. Hartwick went to
Bay City last Friday, to listen to the
two greatest living tragedians, Booth
and Barrett in the play of Julius
Caesar.

Master Harry Evans took a wild ride
for a mile last Saturday. He started
from town with a spring-tooth harrow
and seeder, the rattle of which start-
led the team into a run. The harrow
crossed a creek and threw him from the seat,
but the plucky little fellow righted
himself up and guided the flying team
coolly as an old hand, and stopped
them without injury, on the section
line near his grandfathers.

For ways that are devious have con-
fidence in Uncle Sam's mail routes.—
Take a map of Michigan and try to
understand why mail should be carried
from Kalkaska to Pere Cheney by
horse.—Detroit News. Simply because
a horse can travel faster than a man,
and gets the mail through in less than
one half the time. As soon as the rail-
road is built, through arrangements
will be made to put on a mail coach
and carry it that way—stopping at all
the intermediate post-offices along the
route.—Kalkaska.

The commission of J. K. Wright,
the new register of the U. S. Land
Office, has been received and Mr.
Wright has taken formal possession of
the office, succeeding Mr. N. Clark,
who has held the position for four
years and a half. Mr. Clark has proved
an efficient officer and no day in
that time has passed but his name ap-
pears by his own hand in the records
of the office. Had he been an ardent
supporter of the present administra-
tion instead of a republican, he would
have held the place, but under the
civil service rule, as practiced, off-
ensive partisans must go.

The Art Amateur
For May contains a striking colored
portrait study of a "Laughing Man,"
three-quarters size, and over a dozen
designs in black-and-white, including a
classical figure of "Fame," plate deco-
rations (fish and seaweed, Niplo-
tos roses), a panel decoration (fringed
gentians), a plaque design (birds and
deer), a page of monograms (Q), six
for dollies, and several for wood carv-
ing. Two notable full-page illustra-
tions from Salon pictures are "The
Poachers" (dogs) by Elizabeth Strong,
and "Mending the Net" by Henry Ba-
con. There are useful practical ar-
ticles on landscape painting, charcoal
drawing and wood carving, and in-
valuable hints to art teachers, china
painters and needle-workers. The il-
lustrated series on home decoration
and furniture is continued; the Acad-
emy and American Artists' exhibitions
are duly renewed; an exhibition of
Rembrandt's etchings is noticed and
finely illustrated, and in "My Note
Book" art thieves and tricksters are
hounded without gloves. Price 35 cts.

An Explanation.

What is this "nervous trouble" with
which so many seem now to be afflic-
ted? If you will remember a few years
ago the word Malaria was compara-
tively unknown,—to-day it is a com-
mon as any word in the English lan-
guage, yet at the word covers only the
meaning of another word used by our
fore-fathers. In times past, So it is
with nervous diseases, as they and Ma-
laria are intended to cover what our
grandfathers called Biliousness, and
all are caused by troubles that arise
from a diseased condition of the Liver,
which in performing its functions
it cannot dispose of the bile
through the ordinary channels is com-
pelled to pass off through the system,
causing nervous troubles, Malaria, Bil-
ious Fever, etc. You who are suffering
can well appreciate a cure. We recom-
mend Green's August Flower. Its
cures are marvelous.

Newsy Sittings.

A Sabbath School was organized in
Cheney last Sunday, with J. G. Marsh
as superintendent; S. Hutt, assistant;
Chris Ackerman, Sec. and Sophie
Hutt, Treasurer.

Mrs. S. Hutt is visiting her brother
in the southern part of the State.

The Ladies' Aid Society, of Cheney
gave an entertainment on the evening
of May 23, consisting of music and
recitations, after which they went to
the parsonage and served warm sugar,
biscuits and pickles, for the nominal
price of ten cents. Everybody pro-
nounces it a grand success. Especial
credit is due our worthy president Mrs.
S. E. Johnston, for the active part she
took in preparing and conducting the
receptions. Proceeds of the evening
were \$7.21; for the benefit of their pas-
tor. M. E. M.

The Century Magazine.

The May number of the CENTURY
begins a new volume. The opening
article is the first of the series by Geo.
Kennan, illustrated by G. A. Frost
and Henry Sandham, in which is to be
recorded the results of the CENTURY
expedition into Siberia and examina-
tion of the cable system. The frontis-
piece of this number is a touching
scene at the Siberian boundary post.

Theodore Roosevelt, in his series of
Ranch articles, describes (and Rem-
ington illustrates) his adventurous
and amusing pursuit and capture of
three boat thieves, a short account of
which not long ago appeared in the
newspapers.

Two brief papers appeal especially to
the soldier audience, but are of inter-
est to all. The first deals with the
"Chances of being hit in battle," being
a study of regimental losses in the
Civil War. The second describes the
famous "locomotive chase in Georgia,"
one of the most thrilling incidents of
the war.

The Lincoln Life deals especially with
the efforts made to keep the Border
States from secession, and Mr. Lin-
coln appears not only in this historical
setting, but also as a character of fic-
tion in Dr. Eggleston's Western novel.

"The Graysons," which is now ap-
proaching its most interesting point.
A two-part story by Henry James.
"The Liar," begins in this number,
and there is a complete story by Ed-
ward Bellamy, entitled "A Love Story
Reversed."

The poetry of the number includes
four brief pieces by Aldrich, a dialect
poem by Riley (illustrated by Kauble),
etc.

The departments are unusually full,
and such subjects are discussed as
Civil Service reform and the coming
National convention.

TERRIBLE RAILROAD ACCIDENT.

Seven Persons Killed by the Explosion of a Car-load of Dynamite.

A car-load of dynamite and one of giant powder blew up a train of freight-cars at Loudon, Pa., causing the loss of seven lives and injuring about twenty-five persons, three of whom will die. Twenty-four houses were demolished and glass shattered for miles around. The scene presented an appalling sight, the debris of the freight-cars and the houses, together with here and there little heaps of ashes and charred remains of the dead, depicting a frightful picture. So great was the upward force of the exploding dynamite that the wheels and axles of the cars were thrown a distance of two hundred yards, and one axle fell through the roof of one of the houses on the lower street, on the hill above. Traces of the debris may be found a quarter of a mile away. One of the train men was blown several rods, but was not badly injured. Loss, \$75,000.

TWO-POUND HAILSTONES.

Many People Killed and Injured by Their Fall in India.

Dispatches from India announce that Delhi and Moradabad had been visited by disastrous hail-storms, about 150 persons having been killed. The hailstones were flat and oval in shape and some of them weighed as much as two pounds. At Raseebai, in Bengal, twenty persons were killed, 200 severely injured and 2,000 houses were destroyed by hailstones.

Base-Ball Record.

The national game has been fairly launched for the present season. Popular interest has by no means abated, and every indication points to a most successful season. The following table shows the stand on Monday of the clubs of the four leagues in which Western readers are interested:

Flashes from the Cable.

Mr. Pennington, the United States Minister to Berlin, has fully recovered. The league branches of America, Ireland, have condemned the papal rescript. A wax figure of Gen. Boulanger in a shop window in Berlin attracts constant attention from crowds. Victorien Sardou, the dramatist, in an interview said he thought the French Republic would soon be broken up. Rumors are that Russia has three corps of soldiers upon her western frontier. Opinion in London is that Russia intends showing an aggressive eastern policy.

Condensed Dispatches.

WILLIAM McGUIRE, on trial at Wilkes-Barre, Pa., for the murder of Thomas Brennan, has been found guilty of murder in the second degree. NORMAN McDONALD, of Cape Breton, the last known survivor of the battle of Waterloo, in which he fought under Wellington, has just died at the age of 110. He emigrated to Nova Scotia in 1833. An express package containing \$41,000 in currency shipped by the American Exchange Bank of New York to the Treasury in Washington, was found to have been strangely converted into brown paper by the time it reached its destination. JOHN DEAN was murdered at Helena, M. T., in 1873. His slayer has remained undiscovered. Mrs. M. A. Eckert, an old resident, died recently, and before her demise confessed to her nurse how the crime was committed.

THEY ALMOST FOUGHT.

Congressmen Brown and Bryce Nearly Come to Blows in the House. There was a scene of excitement in the House on the 5th inst., after Mr. Woodburn, of Nebraska, had closed his remarks on the tariff bill. He had incidentally remarked that Aaron B. Harris, of New York, had applied to the tariff committee for having advocated a solution of the tariff question by the use of an American citizen in England. Mr. Brown, of New York, had applied to the tariff committee for having advocated a solution of the tariff question by the use of an American citizen in England. Mr. Brown, of New York, had applied to the tariff committee for having advocated a solution of the tariff question by the use of an American citizen in England.

THE EASTERN STATES.

SAMUEL STEVENS, a Connecticut milkman, mourns the loss of ten cows in one night. The flooring of his stable gave way and the cows, which were fastened with halters to upright posts, were hanging by their necks until dead. CROSBY, upon the heels of the prosecution of the liquor dealers and a gang of burglars at Union City, Pa., came an attempt to assassinate Prosecuting Attorney Frank McClintock, his wife, and two children. Some unknown person placed two gas-pipe dynamite bombs beside Mr. McClintock's residence, one under his bedroom and the other under the front of the building. The gas of the front of the house exploded, but owing to defects in construction only the front of the house was blown up and the inmates were not hurt. The other bomb had been lighted and placed under Mr. McClintock's sleeping apartment, and but for the fact that the fuse was only half burned McClintock's family would have been blown into eternity. The New York Commandery of the Loyal Legion elected Gen. Scholfield Commander. The Massachusetts Supreme Court has denied a rehearing of the case of Mrs. Sarah J. Robinson, the Sumnerville prisoner convicted of the murder of Arthur Freeman, her brother-in-law. This means that Mrs. Rob-

inson must hang unless the Governor and his council commute the sentence to imprisonment. This experience of the New York elevated railroad as defendants in damage suits emphasizes the importance of securing right of way either by purchase, lease, or condemnation proceedings. Large sums of money are being quietly paid out by the Manhattan people in settlement of claims, as recent decisions of the courts establish the fact that damages can be collected for loss of rental to buildings in the past and in the future, and for all damage to the property itself, besides the damage to the business in the original invasion of the streets. The strike at the Edgar Thompson Steel Works at Braddock, Pa., has been declared off by the Knights of Labor.

THE WESTERN STATES.

A STORM of wind struck the little village of Laconia, in Warren County, Iowa, demolishing a two-story building used as a store and burying in the ruins a farmer—Leonard Wilson. He was dead when taken from the ruins. Two other men were slightly injured. Several buildings were damaged. A CHARTER has been filed at Topeka, Kan., for "The Farmers' Federation of the Mississippi Valley," the farmers' trust. The capital stock is \$20,000,000, with shares at \$10 each. The charter is signed by citizens of fourteen States and five Territories. HOOVER & ALSTON, merchants of Xenia, Ohio, have failed, with liabilities of \$200,000 and assets of \$50,000. The Second National Bank of Xenia, which had considerable assets of the paper, was forced to suspend. ALAN C. MYERS has been convicted at Columbus, Ohio, of contempt of court in publishing objectionable articles during the tally-sheet forgery cases. He was fined \$200 and sentenced to three months' imprisonment. An appeal was taken. On the farm of the Widow Freese, near Arlington, Neb., occurred a horrible catastrophe. Five broods of hogs, and when citizens reached the spot, two hours later they found in the ruins the charred remains of seven human beings, distributed among the burned carcasses of the live stock. The entire family, consisting of four adults and three children, had been burned to death, probably in the attempt to rescue the cattle from the burning stable. FIRE destroyed the Los Angeles Cal. Cracker Company's stock and one dwelling, causing a loss of \$80,000, but \$10,000 in surplus. John Scholter, a watchman, is supposed to have perished in the flames. At LaPorte, Ind., in the trial of Henry Augustine for the murder of Samuel Brown, one of the jury became insane, fancying that his fellow-jurymen were going to murder him, and not improving, the Judge dismissed the jury.

FIRE at San Diego, Cal., destroyed the stores of S. G. Ingels, hardware merchant, and Frederick Hamilton, hardware, and slightly damaged other stores. The total loss was \$153,000; total insurance, \$85,000.

THE NATIONAL CAPITAL.

The Senate has passed the following public-building bills: Sterling, Ill. (Senate bill, \$50,000); Fort Dodge, Iowa (Senate bill, \$100,000); Duluth, Minn. (House bill, \$150,000); Atchison, Kan. (Senate bill, \$100,000). The House bill for a postoffice building at Indianapolis was also passed, with an amendment increasing the appropriation from \$125,000 to \$150,000.
